

SECURE REAL-TIME PUBLIC SAFETY COMMUNICATION WHEN SECONDS MATTER

Introducing a compliant, encrypted messaging app for public safety organizations to communicate in real-time.

OUR MISSION IS TO PROVIDE PUBLIC SAFETY WITH A SAFE, SECURE, INTEROPERABLE AND COLLABORATIVE ENVIRONMENT SUITABLE FOR ALL OPERATIONAL CONDITIONS.

SECURE SYSTEM FOR PUBLIC SAFETY

Bridge4PS is a secure platform designed specifically for public safety. Our main focus is interoperability while prioritizing user privacy.

DATA PRIVACY & SECURITY

Unlike 'free' consumer apps that monetize user data, Bridge4PS operates through subscriptions and is dedicated to maintaining the confidentiality of your information.

REDUNDANT & RESILIENT COMMUNICATIONS

Bridge4PS operates independently of agency IT, CAD, and radio systems. It provides a redundant layer of communication that remains available when other systems fail.

A REVOLUTIONARY PUBLIC SAFETY APP THAT:

- Keeps your data secure
- Works seamlessly with other systems so you can say goodbye to app silos
- Removes compliance risks
- Offers affordable pricing to fit your budget

KEY FEATURES NOT AVAILABLE IN CONSUMER APPS

- **GROUPS:** Bulk add/remove users based on organization or operational needs.
- **EFFICIENCY:** Manage channels by inviting Groups, not individuals.
- **CONTINUITY:** Ensure all Team members are included in the right channels.
- **SCALABILITY:** Seamless collaboration with unlimited members.
- **OFF-DUTY MODE:** Control alerts while off duty.
- **CRITICAL ALERTS:** Override vibrate/Do Not Disturb.
- **SCHEDULED POSTS:** Pre-stage messages for events or after hours.
- **POLLS:** Gather quick feedback with custom polls.
- **REMINDERS:** Set follow-ups so nothing is missed.

MULTI-ORGANIZATIONAL DIRECTORY

Exclusive public safety user base not open to the general public.

All registered users are part of a single, nationwide directory.

No anonymous members in text group; all users are identified by their name and organization.

Eliminates the need for personal contact information.

Any user can be invited to private groups or join public channels.

Direct messaging capabilities between any single Bridge4PS users.

EXCLUSIVE CHANNEL ACCESS FOR PUBLIC SAFETY PERSONNEL

- **PUBLIC CHANNELS:** Accessible only to Bridge4PS users, allowing users to subscribe by topic.
- **REDUCE EMAIL CLUTTER:** Improves the consumption of information over traditional email distribution.
- **FEATURES FOR ORGANIZATIONS:** Content can be organized by priority, content and individual operation.
- **AUTOMATED ALERTS:** Facilitates important communications.
- **MANAGE NOTIFICATIONS:** Offers numerous methods for controlling notifications to ensure users receive pertinent information and minimize distractions.
